

DEDICATED PERFORMANCE AND MAINTENANCE SUPPORT

In addition to online performance and maintenance monitoring tools, some matters require a more personal touch, which is why Contiweb's skilled professionals have been appointed to provide personal advice and support.

A member of our professional performance and maintenance team will visit your site on a regular basis to provide a personalised level of advice on optimising your production and offering a dedicated point of contact between your press operators and Contiweb's team of engineers in Boxmeer.

Supervised support

Contiweb appoints a dedicated Performance & Maintenance Supervisor for each customer to provide customized technical advice and support.

Our Supervisors are professionally trained with lots of experience with the Contiweb equipment. They will visit your production site regularly to advise and support your employees on the best methods of improving production efficiency, keeping them informed about current developments and modifications while ensuring that Contiweb machinery is maintained at the optimum levels.

Your Contiweb Supervisor will monitor your machines and prepare a detailed report of every visit with the findings for every machine. They will be responsible for preparing, consulting and updating the OPRS-List (Open Points Regional Service List).

They will also oversee the planning for maintenance with the Service Support Coordinator from the service team at Contiweb facilities in Boxmeer, ensuring you receive the best technical support for all Contiweb services.

Benefits

- A dedicated Regional Service Supervisor
- Performance improvements and minimizing disruption or unplanned downtime
- Process optimizations of all Contiweb-machines
- Accurate status information regarding your machines
- Optimum synergy effect of all available service modules, such as PARS, PAM
- High quality service based on one all-inclusive day rate (10 hours a day).
